

MAKE A SANDWICH

Welcome to the club, Trailblazer. America may not have invented the sandwich, but I have traveled the world and I must say I have come to the conclusion that they have perfected the sandwich. And you are now at the end of a long line of awesome sandwich makers. I have faith in you to carry the torch and do your thing.

LEVEL B

PERIOD 1

TASK 1

1. First thing, and this will sound a little obvious, as a sandwich is a creation of two slices bread with a filling of awesomeness. The awesomeness is where you are really going to shine. But before we get to awesome, you need to choose two pieces on bread. For right now that may be whatever you can find in the breadbasket or fridge. But one day that could become a huge deal to you.

2. Next, traditionally you'll spread butter on the bread. This helps it be a little moist and adds flavor.

3. What next? That's up to you, Trekker. Meat and salad, PB&J, BLT, XYZ, whatever you want. Single stack it, double stack it, make it with three pieces of bread. The only limitation is your imagination and what you find in the fridge.

4. Good luck, my friend. And keep America number one.
